

Tried and true

ComfortGel Blue – the next generation of comfort and technology, delivering everything you've come to expect.

An even higher level of patient comfort and an enhanced overall experience make ComfortGel Blue a mask choice more of your patients will embrace.

Staying true to our time-proven blue gel masks, we've retained the globally popular comfort and flexibility features you expect, while enhancing patient comfort even more. We've incorporated an improved forehead pad designed to help reduce pressure points,

and developed a lower profile exhalation port with an integrated swivel that quietly directs air flow up and away from a bed partner. We've also adopted a new gel formulation. All designed with an enhanced patient experience – and better compliance – in mind. And, using ComfortGel Blue with Philips RespiRONICS System One Resistance Control will deliver optimum PAP therapy and therapy comfort. ComfortGel Blue and our complete line of masks go farther than ever to help you fit 100% of your patients, 100% of the time.

PHILIPS

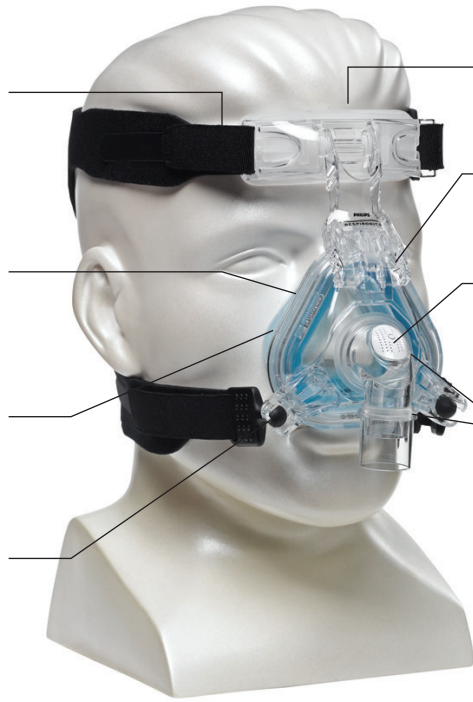

RESPIRONICS

One-size-fits-most premium headgear with EZ Peel tabs adjusts easily in four places for a secure, custom fit.

Silicone Comfort Flap improves seal and can be removed for easy cleaning.

New generation gel technology cushion is soft and conforms to patient's face for added comfort.

Ball-and-socket headgear attachments enable free movement and easy mask removal.

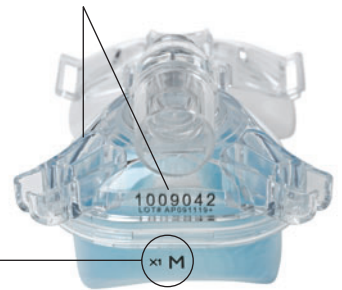

Premium forehead pad improves comfort and fit.

StabilitySelector raises and lowers for proper mask angle, seal, and fit.

Angled exhalation micro ports assure quiet operation and redirect air away from a bed partner.

Two 360° swivels allow tubing to move more freely.

Product name and part number are included on faceplate for easy identification by you and patients.

Sizes and System One Resistance Control settings are printed on bottom of cushion.
